

TRIBALFLARE & DAISY DANCE

BEAUTIFUL

RELEASED 24 JULY 2026 • INDEPENDENT • ALL PLATFORMS

A dark, elegant dance-pop record where Sicilian electronic production meets the voice and UK dance pedigree of London vocalist Daisy Dance.

THE SINGLE

“Beautiful” is a vocal-led dance-pop/electronic single built on punchy pop drums, deep electronic toms and a steady low-end club groove. Daisy Dance moves from an airy, magnetic verse into a direct, chant-like “Beautiful” hook designed to land quickly on radio, playlists and short-form video.

The final section strips the production back to an unexpected classical-piano coda, giving the track a cinematic exit and a distinctive contrast to conventional club-pop arrangements.
