Label-facing pitch

“JUAJUU” is an unreleased Afro House / Afro Melodic House collaboration between Italian independent producer TribalFlare and South African vocalist-songwriter Natasha MD. The track combines a tight 122 BPM club foundation with round sub-bass, organic low-end movement, syncopated congas and shakers, atmospheric pads and minimal melodic plucks. Its emotional centre is Natasha MD’s warm vocal performance: intimate in the verses, lifted in the pre-chorus and hypnotic in the recurring “Jua juu / Mama Afrika” hook. The production is polished but restrained, designed for sunset sets, melodic Afro playlists and dance floors that favour groove, emotion and space over aggressive EDM energy.

Human identity behind the record

Song concept

The lyric is built around memory, return and belonging. The rising sun becomes a trigger for reconnection: closed eyes, red ground, golden dust and arms lifted to the sky. “Mama Afrika” functions as both place and emotional home. The recurring phrase “Jua juu” is framed in the chorus as “sun up high”, giving the track a simple, recognisable vocal motif that can travel across club, streaming and short-form video contexts.
